

Beachcomber Guest House Access Statement

Our guest house is situated close to the city centre, with easy access via taxi from both the central bus depot and train station. We are situated on the main road where customers may park for loading and unloading. There is also limited overnight parking with time restrictions. There is a public car park close by, about 2-3 minutes walk, this offers free overnight parking but daytime charges apply.

Access to the guest house is via two low steps, one up from the pavement to our path, the other from the path to our front door.

The ground floor is level throughout and this includes our breakfast room bar, all this area is clear for wheelchair or push chair access.

Unfortunately the guest house has no ground floor accommodation or ground floor toilet facilities. But we will be more than happy to assist anyone with mobility difficulties with climbing the 15 stairs up to our first floor. We will of course also carry any luggage to and from your room as well.

All our rooms are colour co-ordinated so as not to confuse those customers with visual impairment. Our tables have white crockery on dark green table cloths which is also aimed to help.

Room 1 with shower seat and hand rails.

Guide dogs are welcome.
